DOMIZILE REISEN

In a quiet and wonderful panoramic location, the 5-star resort offers a first-class alpine well-being service. Comprising of nine suites, a residence, a restaurant, a bar & lounge as well as a wellness & spa area, the chalet is the ideal place for your luxurious stay in a dreamlike mountain world at any time of the year. Relax and unwind in the 415 square metre spa area. A variety of wellness treatments, a beauty salon and private spa suite leave nothing to be desired. A 12.5 meter indoor pool, whirlpools as well as two saunas, a steam bath and an infrared cabin complete the luxurious offer. Lech am Arlberg is considered the cradle of alpine winter sports. As of December 2016, the small municipality of the Austrian Vorarlberg region will be home of the luxury retreat Severin*s in Lech. The resort is located in Stubenbach, a district of Lech, with a view of the surrounding mountains. The towns of Zürs, St. Christof and St. Anton are in the immediate vicinity. For more than a century, Lech has made an international name for itself as a destination for skiers and winter sports enthusiasts. 305 km of pistes and 200 km of deep-snow runs guarantee fun and variety on skis and snowboards. A new ski lift opened for the 2016/17 winter season has connected Lech and St. Anton, making the Arlberg region Austria's largest contiguous ski region. In summer Lech am Arlberg is an excellent destination for hikers, active holidaymakers and friends of cultural events such as the annual Arlberg Classic Car Rally or the Lech Classic Festival. The architecture typical of the region served the architects of OFA, based in Innsbruck, as a model for the design of the Severin* in Lech. Through traditional elements such as the copper roof, antique Tyrolean wood and a stone facade, the hotel is harmoniously integrated into the overall picture of the town. The Tyrolean interior designer Reinhard Strasser is responsible for the unusual interior design in cooperation with Wetscher Wohngalerien. The interior is thus a meeting place for high-quality furnishings and state-of-the-art technology. A special highlight awaits lovers of contemporary art during a visit to the Severin*s Alpine Retreat: In collaboration with the Viennese experts of Contemporary Art Advisors, works by international artists were selected for the hotel's premises. These works alternate during the summer and winter seasons, creating new artistic accents throughout the hotel.
